

IntraNutri-Mix

Did you know that stress can cause gastrointestinal imbalance?

INTRA NUTRI-MIX: BEST START TO OVERCOME HURDLES

Like top athletes, getting a boost at the starting line and over strenuous hurdles gives poultry a head start to achieving their high performance objectives.

Stress can impair gut function and health which compromises digestion and absorption of nutrients. Intra Nutri-Mix provides poultry the support needed in times of stress.

4 REASONS TO CHOOSE INTRA NUTRI-MIX

- ✓ A unique organic blend of liquid amino acids and chelated minerals
- ✓ Supports the performance of chicks in their first week
- ✓ Supports gut health during challenging periods
- ✓ Highly bioavailable chelated zinc to support of gut wall integrity

Stress compromises gut health which can reduce **10-30%** of growth potential

Amino acids aren't only essential building blocks for growth but also vital for the immune system

Within 1-3 days, the intestines become inhabited by **1 BILLION** bacteria per gram of digesta

INTRA NUTRI-MIX SUPPORTS ANTIBIOTIC REDUCED POULTRY PRODUCTION

Intra Nutri-mix is a drinking water based supplement within our **Intra Nutrients programme**. Benefits of this programme includes precision nutrition and continuous supplement intake via drinking water and ease of use via flexibility of dosing.
